

NOVUM Hospitality – A Family Business with Heart

Our doors are open to everyone seeking a place filled with warmth, trust, and a sense of security. As a family and a team, we live by our values and strive to offer our guests and partners more than just hospitality: a true home away from home.

Freedom

For us, freedom means giving everyone the space to express their individuality—be it employees, guests, or partners. We encourage everyone to follow their own path, be creative, and grow freely. We create an atmosphere where everyone can be their true self.

Honesty

Honesty is the foundation of our relationships. We stand for transparency and authentic actions, both internally and externally. Our goal is to earn trust and live that trust every day. Together, we create an environment where openness is second nature.

Respect

We treat everyone with dignity and appreciation. Diverse backgrounds, opinions, and cultures enrich us. For us, respect means listening, showing understanding, and engaging on equal footing—with the goal of creating and shaping together while fostering harmony.

Unconditional Love

Our company thrives on passion and dedication. Unconditional love guides every decision we make. We believe that love and compassion are the strongest forces for building connections and making the world a better place. As a family business with heart, we aim not only to redefine hospitality but also to create a space where people come together, feel at home, and create memories for the future.

Together, we live our values—for our teams, guests, and the society that surrounds us.
